Harbour Tour

The tour begins in the Centre with information about who we are and what we do at the Seafarers Centre. There are plenty of facts and figures to mull over as we share about Australia's largest tonnage port. A short DVD is shown to whet the appetite, then down to the jetty for the launch run around the harbour. Get up close to the ships and experience the reality of their size. Meet the Seafarers as they join you on-board for the trip back to the Centre for some well deserved R&R.

Experience the port from the land side of operations. See the loading process in action as ore is transferred through stackers, reclaimers, conveyors and ship loaders to the ships readying them for sailing. The bus goes by the stockpiles of ore, past the conveyors and onto the wharves, enabling you will see the whole operation at work.
